

Maciej Necka

Front-end developer

I am an enthusiastic front-end developer who has been continuously expanding knowledge and skills in the fascinating world of user interface creation. I have been learning programming for 1.5 year and plan on changing the profession. My passions include coding, technological innovations, and the world of MMORPG games.

Projects

Portfolio Website

I invite you to explore my portfolio website, which has been created with passion and great attention to detail. The site serves as a showcase of my projects and professional achievements. All elements of the portfolio have been designed with the aim of providing intuitive navigation and a user-friendly experience, allowing for easy and quick access to information of interest.

 [Live demo – Meeting form](#)

Tasks manager

A simple React application for effective task management. It allows users to add, start/stop, complete, and delete tasks. The application also tracks the time dedicated to each task.

AppLab RWD

A modern, responsive website template. It includes various sections such as a navigation menu, header, main features, pricing, and customer reviews. The primary goal of this project was to use only HTML and CSS to create a responsive design.
